GREENZONE®

Benefits

Builders, architects, specifiers, and pest controllers are utilising innovative GREENZONE® technology to save time and money in the construction process.

Revolutionary products like GREENZONE® Expansion Foam combine expansion joint foam with a termite barrier into a single product; ultimately streamlining key processes on building sites. This patented technology is exclusively owned and distributed by GREENZONE®.

GREENZONE® Expansion Foam

GREENZONE® Expansion Foam is a termite system that acts as a 2-in-1 product: (1) the product acts as an expansion joint foam and (2) the product also acts as a termite barrier. This ultimately saves time, money and resources on building sites.
